

TeachMeIT

Online Training Portal

OVERVIEW

TeachMeIT offers **more than 250 IT** and business-related off-the-shelf eLearning courseware to both corporate users and individuals alike. With TeachMeIT eLearning solutions, the clients not only benefit from a wide choice of courses, the solutions also provide the client the flexibility to choose the training delivery mechanism: computer-based, web-based, or a blend of both.

THE PORTAL

TeachMeIT has a distinct offering – a comprehensive repository of easy, high quality, and affordable online courses. In addition to online courses, TeachMeIT offers corporate training solutions and services, which not only help organizations prepare their workforce for unparalleled growth, but also accelerate the organization's competitive performance. The portal intends to enable organizations to cost-effectively implement learning programs by providing the functionalities to manage, launch, and track online learners. TeachMeIT's offerings include:

- **Ready-to-Use Content** - Comprehensive library of more than 250 reliable, ready to use, off the shelf courses.
- **Curriculum Management** - Robust Mechanism to manage content or learning objects with a view to serve the right content to the right people at the right time.
- **Learner Management** - The e-learning Platform to deploy, measure and manage learning that impacts performance.
- **Course Development Services** - Best-in-class training solutions to empower your employees and support your world-class organization.

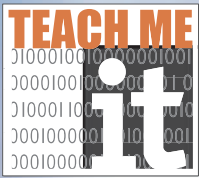

TeachMeIT also provides **assessment tools to administer and monitor the entire training program.**

THE COURSES

TeachMeIT's vast library of online courses constitutes around 1100 hours of learning content in both technical and non-technical fields. The courses, developed using appropriate e-learning methodologies and Instructional Systems Design (ISD), ensure engagement, enrichment, and evaluation of the learner. In addition, the online courses are also made available in form of CD-ROMs to ensure that connectivity and Internet availability issues do not restrict the learning process. The CD-ROMs offer the flexibility of delivering training notwithstanding infrastructure constraints.

TeachMeIT courses have the following design considerations:

- Exceptional quality of graphical interface design, visualization, and development
- Proven instructional design methodology (Implemented over 250 WBT and CBT titles)
- Clearly defined standards and procedures for all phases of CBT & WBT development
- Supporting the learning cycle from assessing needs through the learning process and learning evaluation.

TeachMeIT

BENEFITS

At TeachMeIT, the primary focus is to provide easy, affordable, and high quality Internet-based e-learning solutions with benefits such as...

- Self paced learning providing flexibility, accessibility, and convenience
- Travel, cost, and time savings
- Interactive and rich multimedia learning content
- Anytime, anywhere advantage
- Integrated assessment and testing facilities
